

MARCH NEWSLETTER

One of our main events in the month of February was Bring your Parent to School Day. The children took this opportunity to show their parents the exercises they choose. It was nice to see how the children took time to patiently go over each step. I am grateful you can take time to attend these events as it so obviously means a lot to the children!

The other fun event this past month was the Valentine Day celebration. The children made raspberry muffins for morning snack and also had fruits and chocolate milk. Special thanks to all the parents who signed up to bring decoration and food items for that day. We are grateful to every parent who contributed to our Valentine's Day festivities by offering supplies and special snacks for our celebration. We would also like to thank Willoughby's Mom who has come to talk about Mardi Gras to the children, brought a king cake, activities and beads for all of us.

We would like to welcome Gray in our classroom. He has joined us from the toddler community a couple of weeks ago. In March we are going to have a practice teacher in our classroom from the Montessori Institute. Her name is Ms Emily. She is going to be presenting lessons to the children and working with them for 2 weeks.

BRING YOUR PARENT TO SCHOOL DAY

OBSERVATION MONTH

We have observation in our class this month. The observation window lasts just 45 minutes. I hope you will watch for all the things on the list we'll give you upon arrival, especially for how each child figures out how to choose activities for himself that fit within our limits; how to solve his own problems or enlist friends to help; and how the children themselves might learn by observing. We look forward to your visit. The children are looking forward making tea for our visitors. Please be kind to accept it, they are very excited to be able to make a drink for you :)

UPCOMING EVENTS:

MARCH 6 -10 - BOOK FAIR

MARCH 17 - UPPER ELEMENTARY PLAY

MARCH 31 - TALK WITH THE MIDDLE SCHOOL GUIDES

MARCH 31- LOWER ELEMENTARY PLAY

The Elementary class has organized a recycling challenge. Let us help them in this project.

Trex utilizes millions of plastic grocery store bags each year to create its composite lumber product, keeping this material out of landfills locally and across the country. By building a partnership with schools students can learn the importance of recycling, keep plastic out of the landfills and be rewarded for their efforts.

You can drop the following items in the boxes near the front desk: plastic grocery bags, stretch film (no household saran wrap), plastic department store bags water bottle case wrap, newspaper sleeves, toilet paper/paper towel over wrap, dry-cleaning bags, bread bag / cereal bags.

By reducing, reusing, and recycling plastic bags, you and your child can help reduce litter, prevent pollution and save natural resources. Please help by recycling your plastic bags and packaging.
